ABSTRACT

The bibliographic guide attempts to compile the principal resources (i.e., all books and periodicals) in adult and continuing education and related areas held by the University of Michigan Library system. It is divided into the following subject categories: general works; institutional forms; methodology, teaching, learning, and curriculum; administration and program planning; gerontology; remedial; community development; media; international and comparative; trends and movements; periodicals and serials; and other sources. Items are listed alphabetically by author, within categories. Entry is accomplished by a Library of Congress call number. If the item is held by a divisional library, it is processed by an abbreviation indicating the library in which it is located, with library abbreviations identified. A listing of other sources available is included and encompasses governmental agencies, international organizations, professional associations and societies, specialized agencies and organizations, and academic resources and centers. (LH)

* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

INTRODUCTION

This bibliographic guide to the University of Michigan's holdings in Adult and Continuing Education was prepared by Ms. M. Susan Imel, a doctoral candidate in Adult and Continuing Education at the University of Michigan. Faculty and students as well as practitioners in the field are in her debt for preparing a useful and valuable tool that will serve many educational needs.

The literature of Adult and Continuing Education is spread throughout the University Library system. The Guide should provide an orderly basis for a search for needed references. The University of Michigan Libraries use the Library of Congress call number system. The Guide therefore has an additional utility for those libraries which catalog holdings under the Library of Congress system.

While the Guide's classification system is necessarily arbitrary, we believe it comprehends the major topical areas in the field of Adult and Continuing Education. The Guide attempts to list all books and periodicals held by the Libraries; it does not -- could not -- list individual journal articles.

Among practitioners and in the professoriate as well, there is growing recognition that Adult and Continuing Education is an academic discipline and a field of practice worthy of serious study. The growth of the literature attests to that recognition. This Guide is a first at the University of Michigan -- a drawing together of principal resources in Adult and Continuing Education.

USER'S GUIDE

This bibliography is a list of materials on Adult and Continuing Education and related areas held by the University of Michigan Library system. Each entry is accompanied by a call number; if the item is held by a divisional library, it is preceded by an abbreviation indicating the library in which it is located. (See list of abbreviations below.) Although many of the entries are held by more than one library, only one location is indicated. The Public Catalogue on the second floor of the Graduate Library gives additional locations; this catalogue contains entries for books held in all divisional libraries except the holdings at the Center for the Continuing Education of Women (CEW). The locations of all divisional libraries are available in the Public Catalogue.

The bibliography is not annotated, but is divided into subject categories to aid users. Entries are listed only once although many could appear in more than one category. If this overlap is not obvious from an entry's title, a cross-reference to other categories appears following the entry.

All libraries use the Library of Congress Classification system except the CEW which has developed its own scheme. In addition, a few entries appear with the letter "X" preceding the number. "X" indicates a temporary entry which is subject to change. Consult the Public Catalogue before looking for an entry preceded by "X".

At the time this bibliography was being compiled, the Education Library (housed in the Undergraduate Library) was being absorbed into other collections in the library system. Most books were being reclassified as Undergraduate (UGL) books. Therefore, UGL is used for entries housed in both the Undergraduate

and Education Libraries. However, some of the items in the Education collection may be moved to the Graduate Library. In the event you cannot locate an UGL designated book in the Undergraduate Library collection, consult the Public Catalogue.

Most items in the bibliography are books; however a few dissertations which appear on microfilm are included. These entries are indicated by FILM followed by a number. The microfilm collection is housed in the Microform Reading Room 203 in the Graduate Library. In addition, a few items from the ERIC collection are listed; ED plus a six digit number indicates such an entry. The ERIC microfiche are housed in the ERIC Library located on the second floor of the School of Education and in Room 203 of the Graduate Library.
